

Transmission Line and Solar Project Open House

JOIN US FOR INFORMATION ABOUT THE KING TRANSMISSION CONNECTION AND TENMILE CREEK SOLAR PROJECTS

Xcel Energy is proposing the new King Transmission Connection power line that would connect with the Tenmile Creek solar project proposed for central St. Croix County.

Landowners and community members are invited to an open house Xcel Energy will host on November 12, 2024, to learn more about route options under consideration for the King Transmission project as well as information about the proposed solar project.

Using feedback from landowners, local governments and other stakeholders, Xcel Energy will develop two route options to include in its application for Certificate of Public Convenience and Necessity that will be submitted to the Public Service Commission of Wisconsin (PSCW) in early 2025. The PSCW will decide on the final route following its public review process.

Route and location options available for review.

The route options can be viewed at xcelenergytransmission.com/KingTransmission. Large format maps will be available at the meetings along with representatives to answer questions.

Comments can be submitted at the meeting, via the comment form on the project website, or by email at KingTransmission@xcelenergy.com.

Please call **800-957-9921** with any questions.

Open House Date:

Nov. 12, 2024

Time:

3:00-7:00 p.m.
